

JENIFER A. NADEAU

Office: University of Connecticut
Department of Animal Science
Unit 4040
17 Manter Rd.
Storrs, CT 06269-4040
Phone: (860) 486-4471
Email: jenifer.nadeau@uconn.edu

Education: A.A.S. Agricultural Science, 1993, State University of New York at Morrisville College
B.S. Animal Science, 1995 University of Kentucky
M.S. Comparative and Experimental Medicine, 1997 University of Tennessee
Ph.D. Animal Science, 2001 University of Tennessee

Employment History: 1995 Research Technician, University of Tennessee
1995-2001 Graduate Teaching Assistant, University of Tennessee
2001-2007 Assistant Professor, University of Connecticut
2007-present Associate Professor, University of Connecticut

Honors or Distinctions: Gamma Sigma Delta Honor Society of Agriculture
CANR Kinsman Award for Excellence in Teaching, April 2013
Special Merit Award, CT River Coastal Conservation District, 2013
Outstanding Service Award, Eastern National 4-H Roundup, 2018
Distinguished Service Award, American Youth Horse Council, 2019

TEACHING EXPERIENCE

Teaching Appointment: 35%

Horse Science (ANSC 2251), 3 credits (Fall 2008-present):

Instructor of Record, 100% Credit to Instructor. Familiarize students with horse types and breeds and their nutrition, breeding, evaluation, behavior, care and management with attention given to detailed studies of the problems and practices of horse production and use. Taught via both lecture and lab. Taught both spring and fall, co-taught in spring with SAAS 251.

Principles of Animal Nutrition (ANSC 2111), 3 credits (Spring 2002- Fall 2008):

Instructor of Record 100% Fall 2002-2008. Focuses on digestive anatomy; the classes of nutrients including their digestion, use and sources, formulating rations and nutritional programs for animal enterprise.

Light Horse Training and Management (ANSC 3456), 2 credits (Spring 2009):

Instructor of Record 50% The theory, fundamentals and practice of breaking, training, fitting horses.

Behavior and Training of Domestic Animals (ANSC 1602), 3 credits (Spring 2019-present):

Instructor of Record 50% Application of behavior of cattle, horses, sheep, goats, swine and poultry to their management, training and welfare. Basic principles of genetics and physiology of behavior, perception, training, learning, motivation, and stress with consideration of integrated behavioral management and animal welfare.

Guest Lectures and Laboratories:

- Introduction to Animal Science (ANSC 1001): 1 lecture per year, 2001-present
- Animal Nutrition (ANSC 2111): 1 lecture and 1 lab per year, 2009-present
- Behavior and Training of Domestic Animals (ANSC 1602): 1 lecture per year, 2004-2018
- Introduction to Companion Animals (ANSC 1676): 1 lecture per year, 2003-2005
- Horse Breeding Farm Management (ANSC 3452): 1 lecture per year, 2011-present

Undergraduate Student Advising:

- Advising: 20-60 students with an equine science concentration
- Advisor for the Equine Club since its inception (2007-2020)
- Advisor for the Sigma Alpha Sorority (2007-2017)
- Advisor for the Vaulting Team (2001-2005)
- Freshman summer orientation advising for CANR and RHSA students

Graduate Student Mentoring

Major Advisor, Completed MS Students

Kelly Chameroy, 2004
Clayton McCook, 2005
Melissa Philbrick, 2008
Caitlin Lewis, 2012
Amanda Morris, 2014
Yuqing He, 2017
Nicole Gonzalez, 2021
Jacqueline Johnson, 2022
Angela Miller, 2023

Major Advisor, Completed PhD Students

Satyender Valipe, 2009

Associate Advisor

Britt Ingvertsen, 2005

Grants Received

As PI:

1. 3. Effect of Season on Travel Patterns and Hoof Growth in Horses Kept in Varying Sized Turnouts. OSP Scholarship Facilitation Fund. 11/1/14-10/31/15. \$1500
Duration:

Grant Title: Greenways Ambassadors in Training Project. American Quarter Horse Association (AQHA) Stewards for Trails, Education and Partnerships (STEP). 7/31/18-8/1/19.

\$1400

2. Horses and Humans For a Healthy Habitat Youth Outreach Program. American Youth Horse Council. 4/1/09-5/1/11, \$750.

3. Effect of Season on Travel Patterns and Hoof Growth in Horses Kept in Varying Sized Turnouts. OSP Scholarship Facilitation Fund. 11/1/14-10/31/15. \$1500
Duration:

4. Nadeau, J. Scholarship Facilitation Fund. \$1933.50. 1/1/20-12/31/20. Investigating the effect of strongyle load on hematology in horses.

5. Nadeau, J. Storrs Agricultural Experiment Station/CAHNR Capacity Grant (Hatch). \$60,000. 10/1/20-9/30/23. % of time committed: 10%. Investigating the influence of host factors on parasitic load in horses and their effect on body condition

6. Nadeau, J. Office of the Vice President for Research's Research Excellence Program (REP). \$25,000. 8/25/21-6/30/23. Influence of the gut microbiome on parasitic load and blood analytes in horses.

As PI for Student:

1. "Force Applied to the Horse's Face by Bitted and Bitless Bridles" Student Kelli Knapp
IDEA Grant. 3/30/18-4/1/19. \$2,335.28

Student Recruitment:

- Open House participant (2003-2015)
- Through State/National Youth Extension Programs (2001-present)

Professional Development in Teaching:

Northeast Regional Teaching Workshop (2003-2005, 2007)
UConn Institute for Teaching and Learning Workshops (2005-present)
UConn Winter Teaching Institute (2008-2013)
UConn Advising Workshop (2017, 2018)

Development of a Minor in Therapeutic Horsemanship Education (2002-2004)

Complete Course Redesign with assistance from Institute for Teaching and Learning:

ANSC 2111, Animal Nutrition, 2006
ANSC 2251, Horse Science, 2008

Publications Specific to Teaching:
