
HOW TO APPROACH A HORSE ON THE TRAIL

Horses are prey animals and can be easily spooked by fast or unfamiliar objects and movement. Please remember:

- Horses have the right of way
- When you see a horse on the trail, stop and speak. Ask the rider the best way to approach the horse, or if you should wait and let the horse pass
- Speaking also lets the horse know that you are a human
- Do not hide - it scares horses
- Please don't wave your walking stick or anything else at a horse

Thank you - let's all enjoy the trails!
